Business Pandemic COVID-19 Planning Checklist

In the event of pandemic diseases, like Coronavirus (COVID-19), businesses play a key role in protecting employees' health and safety as well as limiting the negative impact to the economy and society. Planning for pandemics is critical. To assist you in your efforts, the Lincoln-Lancaster County Health Department has updated the Federal Centers for Disease Control and Prevention (CDC) checklist created for businesses for pandemic influenza. It identifies important, specific actions businesses can take prepare and respond. It will also help you in other emergencies. Additional information for businesses can be found at https://www.lincoln.ne.gov/city/health/index.htm or https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-business-response.html

1.1 Pla	an for the	impact o	of a pandemic on your business:
Completed	In Progress	Not Started	
			Identify a pandemic coordinator and/or team with defined roles and responsibilities for preparedness and response planning. The planning process should include input from labor representatives if applicable.
			Identify essential employees and other critical inputs (e.g. raw materials, suppliers, sub-contractor services/products, and logistics) required to maintain business operations by location and function during a pandemic.
			Train and prepare ancillary workforce (e.g. contractors, employees in other job titles/descriptions, retirees).
			Develop and plan for scenarios likely to result in an increase or decrease in demand for your products and/or services during a pandemic (e.g. effect of restriction on mass gatherings, need for hygiene supplies).
			Determine potential impact of a pandemic on company business financials using multiple possible scenarios that affect different product lines and/or production sites.
			Determine potential impact of a pandemic on business-related domestic and international travel (e.g. quarantines, border closures).
			Find up-to-date, reliable pandemic information from your local public health department, emergency management, and other sources (CDC, OSHA) and make sustainable links.
			Establish an emergency communications plan and revise periodically. This plan should include identification of key contacts (with back-ups), chain of communications (including suppliers and customers), and processes for tracking and communicating business and employee status.
			Implement an exercise/drill to test your plan, and revise periodically.
1.2 Pla	an for the	impact o	f a pandemic on your employees and customers:
Completed	In Progress	Not Started	
			Prepare and allow for employee absences during a pandemic due to factors such as personal illness, family member illness, community containment measures and quarantines, school and/or business closures, and public transportation closures.
			Implement guidelines to modify the frequency and type of face-to-face contact (e.g. hand shaking, large group meetings, seating in meetings, office layout, shared workstations) among employees and between employees and customers. Consider options for staff working remotely.
			Strongly encourage staff to stay home if ill and track employee health status, timeframe to return, etc.
			Evaluate employee access to and availability of healthcare services during a pandemic and improve services as needed.
			Evaluate and ensure employee access to and availability of mental health and social services during a pandemic, including corporate, community, and faith-based resources.

Identify employees and key customers with special needs, and incorporate the requirements of such

1.3 Est	tablish po	olicies to l	be implemented during a pandemic:
Completed	In Progress	Not Started	
			Establish policies for employee compensation and sick-leave absences unique to a pandemic (e.g. non-punitive, liberal leave), including policies on when a previously ill person is no longer infectious and can return to work after illness. Follow local health department and CDC guidance.
			Establish policies for flexible worksites, hours, and working remotely.
			Establish policies for preventing disease spread at the worksite, such as promoting cough or sneeze in your elbow or tissue, hand washing, and prompt isolation and exclusion of ill employees.
			Establish policies for employees who have been exposed to the pandemic disease, are suspected to be il or become ill at the worksite (e.g. infection control response, immediate mandatory sick leave).
			Establish policies for restricting travel to affected geographic areas (consider both domestic and international sites), evacuating employees working in or near an affected area when an outbreak begins, and guidance for employees returning from affected areas (refer to CDC travel recommendations).
		ш	Set up authorities, triggers, and procedures for activating and terminating the response plan, altering business operations, and transferring business knowledge to key employees.
1.4 All	locate res	ources to	protect your employees and customers during a pandemic:
Completed	In Progress	Not Started	
			Provide sufficient and accessible infection control supplies (e.g. soap, alcohol based hand sanitizer, tissues and receptacles for their disposal) in all business locations.
			Enhance communications and information technology infrastructures as needed to support employees working remotely and remote customer access.
			Ensure availability of medical consultation and advice for emergency response.
1.5 Co	mmunica	ite to and	l educate your employees:
Completed	In Progress	Not Started	
			Develop and disseminate programs and materials covering pandemic fundamentals (e.g. signs and symptoms of illness, how it spreads, how to prevent illness), personal and family protection and response strategies (e.g. hand hygiene, coughing/sneezing etiquette, contingency plans).
			Anticipate employee fear and anxiety, rumors and misinformation and plan communications.
			Ensure that communications are culturally and linguistically appropriate.
			Disseminate information to employees about your pandemic preparedness and response plan.
			Provide information for the at-home care of ill employees and family members.
			Develop platforms (e.g. hotlines, dedicated websites) for communicating pandemic status and actions to employees, vendors, suppliers, and customers inside and outside the worksite in a consistent and timely way, including redundancies in the emergency contact system.
			Identify community sources for timely and accurate pandemic information (domestic and international) and resources.
1.6 Co	ordinate	with exte	ernal organizations and help your community:
	In Progress	1	
			Collaborate with local health department, insurers, health plans, and others as appropriate, to share your pandemic plans and understand their capabilities and plans.
			Collaborate with federal, state, and local public health agency and/or emergency responders to participate in their planning processes.
			Communicate with local public health agency and emergency management about the assets and/or services your business could contribute to the community.
			Share best practices with other businesses in your communities, chambers of commerce, and associations to improve community response efforts.
